

Horizons supported by NMCF during the Summer of 2024 and helped c. 30 kids to learn to sail in Plymouth Sound

Horizons Children's Sailing Charity, Devonport, benefitted from a grant from the NMCF in 2024. Horizons has been making waves in the lives of young sailors with its RYA accredited summer sailing program, designed to provide children with both sailing skills and a sense of confidence on the water. Each year, the charity invites children from various backgrounds to experience the thrills of sailing, while learning valuable life lessons along the way.

The summer program offers an immersive, hands-on approach to sailing, where kids of all skill levels come together to learn the basics of boat handling and teamwork. Under the guidance of experienced instructors, the children develop not only their technical sailing skills but also crucial qualities such as perseverance, communication, and problem-solving.

This past summer, the impact was clear. We watched confidence build week by week, and friendships form. You can tell by the smiling faces!

At Horizons, it's not just about the sailing; it's about giving children the opportunity to discover their own potential, broaden their horizons, and leave with a sense of accomplishment that will stay with them long after the summer ends. Thank you, to the trustees of the Noel Marshall Award for your generous support and donation – we'd love to welcome you down to the Marina for the start of our next season, so you can see Horizons in action for yourselves!
