

# Is YOUR boat safe ?

## **RNSA Portland Branch would like to invite you to a talk by EYE marine about Mooring Buoys**

Eye Marine are specialists in marine mooring equipment and will be discussing the importance of using the correct mooring equipment. They will be passing on their experience and knowledge of permanent moorings, methods and systems, something extremely relevant to many of us on swinging moorings in the Portland area. They will go into detail on the effects of tides, waves, overloading and corrosion and will be happy to answer questions.

This fascinating talk will be held at the **Weymouth and Portland National Sailing Academy** at **19.30** on **26<sup>th</sup> September 2018**. RNSA believe that this opportunity would benefit many of us with local moorings and would like to extend the welcome to all clubs in the Portland area.

*For further details please contact Steve Pointon (RNSA Portland Branch Social Secretary) on 07880 587244 or email: [pointons704@gmail.com](mailto:pointons704@gmail.com). . Look forward to seeing you all there.*
